Dayton Engineers' Club
c/o Mr. Bradley Schaeffer
2700 Winters Bank Tower
Dayton, Ohio 45402

Gentlemen:

I wish to thank you for the financial support which you have given to me for my college expenses during the past two years. Without your backing I would probably not be among those who will be graduating from the University of Dayton on April 25, 1976. Because of your grant to me, I will be there on that day to receive my Bachelor's Degree in Electrical Engineering.

I thought you would be interested in hearing of my future plans. I have accepted an offer of employment with the Communications Division of Motorola, Inc., located in Schaumburg, Illinois. One of the major influences on my decision to work for them is their master's Degree Program which they conduct in their plant. This accredited program will provide me with the most efficient way to further my education as well as the job experience needed to become a professional engineer.

Again, I wish to thank you for your assistance when I needed it most. There will always be good engineering students who are in need of such assistance. Whether they will be able to find the financial backing they need to complete their education will depend on all organizations in the engineering society.

Sincerely yours,

John Smedinghoff

USE OF FUNDS

1. Investments
2. Distributions to colleges as a grant to an Engineering student. \$500 per year in 1974-75-76 and 1977.

3. Contributions to:

Edison Science Youth Day
Program.
